

**CAPE VINTAGE MOTORCYCLE CLUB
Club Breakfast Run
Sunday 1st November 2015
To Stellenbosch Flying Club Airfield**

After the weather being so summery this week, it would change just for our Clubs once a month breakfast run (Is that Murphy's Law? I think it's sods law, why blame poor old Murphy!)

Only one brave soul came by bike, well done Kenn Sara.

On arrival the rain was easing off but look at the “winter” outlook

But the weather did not stop most people eating a super breakfast and one of the best values for money that you can buy, well done to the Flying Club guys.

Just as we were getting coats on ready to leave, some vintage cars came from the hangers, not sure what the occasion was, but the weather was not stopping them, I bet they were hoping, like us, for the good weather of the previous days!
